WILLIAM WILSON MULLINS  
Carnegie Mellon University  
PUBLICATIONS  

Compiled by Robert F. Sekerka*  
April 17, 2015  

*University Professor Emeritus of Physics, Mathematics and Materials Science, Carnegie Mellon University. Comments in square brackets denote preprints or missing copies of a paper archive.

44. W. W. Mullins, “Variational Principles and Bounds for the Conductance of a Het-
45. R.F. Sekerka and W. W. Mullins, “Proof of the Symmetry of the Transport Matrix
(1980).
47. W. W. Mullins, “The Thermodynamics of Crystal Phases with Curved Interfaces:
Special Case of Interface Isotropy and Hydrostatic Pressure,” Proc. Int. Conf. on
Solid-Solid Phase Transformations, H. I. Aaronson, D. E. Laughlin, R. F. Sekerka
50. W. W. Mullins, “The Statistical Self-Similarity Hypothesis in Grain Growth and
51. J. A. Barnard, P. Wynblatt, W. C. Johnson and W. W. Mullins, “A Comparison of
55. W. W. Mullins and Jorge Viñals, “Self-Similarity and Growth Kinetics Driven by
57. P. Leo, W. W. Mullins, R. F. Sekerka, J. Viñals, “Effect of Stress on Late Stage
58. W. W. Mullins, “A One Dimensional Nearest Neighbor Model of Coarsening,” Pro-
cedings of the Calculus of Variations and Nonlinear Material Behavior, Carnegie
